Profile

Final-year Bachelor of Computing student specialising in Software Engineering, with hands-on experience delivering enterprise software solutions through a Systems Analyst learnership at First National Bank (FNB). Experienced across the full software development lifecycle, including requirements analysis, system design, development, testing, and Agile delivery. Proficient in Java, C#, Python, JavaScript, SQL, Node.js, Git, Docker, and modern software engineering practices. Passionate about backend and full-stack development, with a strong interest in cloud technologies and in building secure, scalable applications that solve real-world business problems. Seeking a Graduate Software Engineer role where I can apply my technical skills, contribute to innovative software solutions, and continue to grow as a software engineer.

Employment History

Learnership- System Analyst, FNB, Johannesburg

APRIL 2025 — MARCH 2026

- Collaborated with software developers, business analysts, and stakeholders to design and implement enterprise banking solutions.
- Translated business requirements into detailed technical specifications and functional system designs.
- Contributed to the development, testing, and enhancement of enterprise software applications.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Assisted in identifying, debugging, and resolving software issues to improve application performance and reliability.
- Supported system integration, user acceptance testing (UAT), and software deployment activities.
- Worked within the Software Development Life Cycle (SDLC) to deliver high-quality software solutions.

Education

Bachelor of Computing Belgium Campus Institute of Higher Learning, Pretoria

FEBRUARY 2022 — PRESENT

- Currently pursuing a Bachelor of Computing with a strong focus on Software Engineering, Database Development, Web Programming, and Linear Programming.
- Building solid technical and problem-solving skills through hands-on coursework in full-stack development (front-end and back-end), database systems, and scalable system design.
- Gained practical experience working on real-world projects using agile methodologies and collaborating effectively in team environments.

Bachelor's Pass, Grey High School , Port Elizabeth

JANUARY 2019 — DECEMBER 2021
